“ Worked with Ken years ago at the Juday Lamarsh Building, he had a great sense of humour and one joke he told me cracked me up so much i' ve been retelling it for well decades now he said " A wise old man was asked once by a reporter what he thought was mans greatest invention....the man pondered a few seconds and said i'd have to say the thermos....the report said the thermos why?...well the old man said you know how it keeps hot things hot and cold things cold? The reporter said yeah?....the old man looked at him and said...How Does it know??. Keeping you in thought and prayers.
