“ *Serenity meant so much to me as one of her closest friends... She was easily the most beautiful girl I could've ever met in both of her looks and her heart... She supported me when I was down and stressed from work, she played and spoke with me almost every day, and was genuinely the only person who made me really happy for the time... Especially during when the whole world was in lockdown back in 2020. She meant the closest to my heart and was really one of the biggest supporters to my passions... We had so much in common, we both bonded over being on the Autism spectrum which brought us closer, and she was the only key that could blow those storm clouds over my head away on a bad day...*

I wish to upload some drawings that kept us close together as friends and ones that she loved and meant close to her heart... Please take them and remember them on and keep our best friendship close together and remembered...

I really want to share my massive and unconditional condolences to her absolutely wonderful family and parents who raised someone to be the most wonderful little girl right... We're all with you in spirit Serenity... And we will always keep you in all of our hearts. ☐ 🕊

My deepest condolences to her family as they go through this tough time. May all my thoughts and prayers see her and her family well.*
